

# ABHIL VIDHYADHARAN

Software Engineer | Full Stack developer

abhilkv.official@gmail.com | +91-7012366845 | Bangalore, India

## PROFESSIONAL SUMMARY

Software Engineer with over 7+ years of experience designing, developing, testing, and deploying web applications using modern technologies such as **JavaScript, TypeScript, React.js, Next.js, Node.js, and Go**. Skilled in building **scalable, high-performance micro frontend architectures** and integrating applications using **REST APIs, Docker, Kubernetes, and OpenShift**. Adept at working in **Agile environments**, collaborating across cross-functional teams, and delivering optimized, responsive user interfaces. Strong hands-on experience with **Git, Storybook, and web performance optimization**, combined with a solid understanding of **cloud platforms and containerization**.

## TECHNICAL SKILLS

|                                       |                                                                                             |
|---------------------------------------|---------------------------------------------------------------------------------------------|
| <b>Languages &amp; Markup:</b>        | TypeScript, JavaScript, Go, HTML5, CSS3, SCSS                                               |
| <b>UI Frameworks &amp; Libraries:</b> | <a href="#">React.js</a> , Next.js, Gatsby.js, React Native, Redux, Redux-Saga, Redux-Thunk |
| <b>Backend &amp; APIs:</b>            | Node.js, Express.js, REST APIs                                                              |
| <b>Databases &amp; Caching:</b>       | MongoDB, MySQL, Redis                                                                       |
| <b>DevOps &amp; Cloud:</b>            | Docker, Kubernetes, OpenShift, Azure DevOps                                                 |
| <b>Messaging &amp; Streaming:</b>     | Apache Kafka                                                                                |
| <b>Testing &amp; Quality:</b>         | Jest, Enzyme, React Testing Library                                                         |
| <b>Tools &amp; Practices:</b>         | Git, GitHub, Bitbucket, Webpack, Babel, Storybook, i18n, Agile/Scrum                        |

## PROFESSIONAL EXPERIENCE

**IBM India Software Labs** | *Software Developer* | (Oct 2023 – Present)

**Project Focus:** *MultiCloud SaaS Platform (MCSP)*

- Developed and maintained UI components for SOLIS-UI, a central hub for IBM SaaS products built on micro frontend architecture.
- Integrated React.js with Docker, Kubernetes, and OpenShift to create scalable, containerized applications.
- Improved UI performance and modularity by implementing optimized, reusable components.
- Built and maintained RESTful APIs using Express.js and implemented an SSR-based dashboard UI for improved performance and SEO.

**Wissen Technology Pvt. Ltd.** | *Senior Software Engineer* | (Oct 2022 – Oct 2023)

**Project Focus:** *Payment App & Admin UI*

- Built Support screens allowing users to raise tickets, upload documents, and track issue resolution.
- Designed and implemented an Admin Dashboard with responsive design, integrated with the client's SSO-enabled framework.
- Leveraged micro frontend architecture with Webpack Module Federation for modular app integration.

**KeyValue Software Systems Pvt. Ltd.** | *Software Engineer* | (Jun 2019 – Sep 2022)

**Project Focus:** *Onboarding Tool, Pet Care Platform, Employee Mobile Application*

- Developed a Progressive Web App (PWA) for a Singapore-based client combining ecommerce and healthcare domains.
- Delivered React-based OMS/WMS/CMS components integrated with Shopify for a pet ecommerce platform.
- Built and maintained React Native mobile applications for financial institutions to securely manage customer data.
- Contributed to Shopify-based websites using Liquid and jQuery.

## EDUCATION

**B.Tech in Computer Science and Engineering** — Viswajyothi College of Engineering and Technology, Vazhakulam :

CGPA: 7.55 / 10

**Higher Secondary Education** — St. Joseph's HSS, Paingottoor :

Percentage: 92%
